

ATLANTIS SWIMMING CLUB, HORSHAM  
(Affiliated to South East Region A.S.A.)

5th December 2011

Dear Member

**Sussex Seahawks**

I am writing to inform you that today Atlantis is announcing an exciting initiative to create, initially with our near neighbours Shiverers, a combined squad to be known as the Sussex Seahawks Swim Team.

This won't disturb each club's well-established training and competition programmes. This will continue in our case to be under the Atlantis banner. Seahawks will focus on the higher level regional and national competitions.

Our aim for the new squad, which will support our existing clubs, is to enhance the opportunities available to our swimmers and to take their development to a new level. Both Shiverers and Atlantis are committed to encouraging other Sussex clubs to join in the goal of making the Sussex Seahawks a real swimming force in the South East and nationally. For your information and interest I enclose:

- the press announcement we are making today;
- a note that provides more detailed answers to the questions that may be in your mind as a result of this announcement.

At our training sessions this week - and in particular at our Thursday Club Night - coaches will be telling swimmers more about the Seahawks and what it means for them and Atlantis.

I hope very much that you will welcome and support what I believe is an important further step in Atlantis' development as a first-rate competitive swimming club.

Kind regards
